Happy Wacky is based on a book soon to be published, *Lost World Comes to America*. The story revolves around English speaking penguins that are discovered in the Antarctic by a lost expedition ship, upon coming to America. When these adorable penguins arrive in America, they face incredible adventures and magical journeys.

¹Once upon a time, long, long ago, a lost Antarctic Expedition ship was badly damaged by ice. They came upon a group of beautiful little birds. At first, the expedition call them "little people", then "penguins."

²After a short acquaintance time with the penguins, the English captain discovered that they had the ability to learn and speak. The expedition taught them everything there is to know about their culture, civilization, and education. They also helped them with their fishing and how protect themselves against leopard seals without hurting them. There were a family of penguins that eventually received a name, it was the Happy Wacky Family.

³Because the ship was so badly damaged, it took the crew a long time to repair to it. Now the ship was ready for sailing. Then they had a big happy party on the ship. On the last day, the captain gave the head penguin his blue jacket, which said "This is for you, my good friend". At that the ship sailed away, and the penguins became very sad.

⁴Many years passed by, and the Happy Wacky Family grew. They stood out as a pillar of the community. Their names are as follows: the Head Penguin, Mr. Happy Wacky; his wife, Persy; their baby, Precious; Grandpa and Grandma Wacky, their Uncle, No-No Wacky, who is a no-no person, and Aunt Money Penny, who is a stingy money maker have two teenage children named Patti and Skully Wacky. Their other relatives are Scoopey Wacky, who is the down and out worried penguin, Cool Wacky the one who is always cool and on the ball, Zoh Wacky, who set the fashion for the penguin world, Sir wacky, who is the cultured one, and Julie Wacky, who is the organized one.
